Your Quick Guide

Timber Sliding Sash Windows

True Heritage Solution

Designed to include traditional heritage features, whilst incorporating modern-day technology. Our Timber Sash Windows are available with spiral balance or cords and weights, internally glazed, featuring double weatherstrips and cutting edge glazing options.

Whether you're on the look-out for Timber Sash Windows for a new-build or renovation project this is the solution.

The Sash Windows comply with the new Part Q Building Regulations and they are tested to the very latest PAS 24:2016 security test.

Our Heritage style windows are approved for listed properties or those governed by the demands of conservation.

Modern-day Technology

Our Timber Sash Windows are made of fully engineered multi-layered Redwood (Dark Red Meranti available upon request).

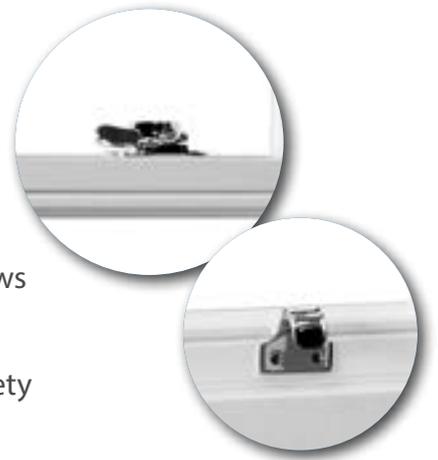

All Timber Windows are manufactured using fully engineered timber to give dimensional stability, longevity and high performance. We only use certified timber from well managed sources, with full FSC accreditation.

The defects that normally occur in timber such as knots and shakes are removed, which means we are able to offer a finished product that has all the benefits of timber but none of the disadvantages.

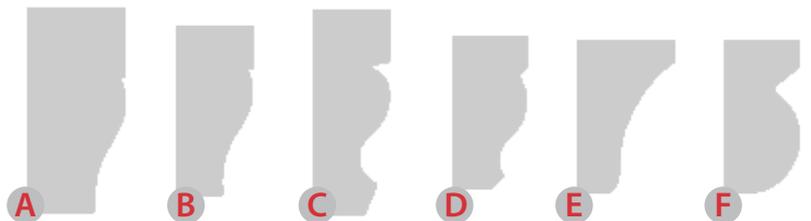

Key Features

- >> Cords and weights or spiral balance mechanism
- >> Double or triple glazing
- >> Easy clean facility on cords and weights
- >> Bottom sash rail options of 100mm for replicating authentic windows
- >> 6 different decorative run-through horn designs
- >> Angel ventlock and strikeplate to restrict sash opening for child safety
- >> Georgian bars available

Horn options

We offer 6 different horn options, which gives you the choice and flexibility to achieve a traditional appearance that truly suits your property.

Colour Options

A wide range of stain options are available combined with clear timber to achieve a seamless finish. Stain takes a slightly different appearance dependant on timber specification. We also offer a perfect colour solution for complementing period window designs; the five heritage colours below are particularly suited to properties with a stone facade. Besides these colour we also offer any RAL colour and a dual colour finish.
