by ultraframe

The great NEW roof replacement

Unrivalled Design.

The first roof that's designed to give you the flexibility to combine glass and a solid roof. LivingROOF can be formed into any shape or roof style. Glazing panels can be inserted anywhere to help you maximise the use of natural light and give you a truly bespoke design.

- All LivingROOF designs come complete with the LivingRoom perimeter ceiling system as standard, not only providing the perfect place for spotlights and speakers, but it gives the effect of lifting the vaulted ceiling, giving a light airy feel to the new room.
- LivingROOF can incorporate the Classic Cornice - hiding the guttering and giving your conservatory a modern, aesthetically pleasing feature.
- Externally the LivingROOF is finished in urban grey to compliment any housing style and give a contemporary look.
- The LivingROOF is quick to install compared to other solid roofs on the market and because of its pre-fabricated design, doesn't require any onsite cutting, reducing waste and disruption.

RAL7016 urban grey
'matt effect'.

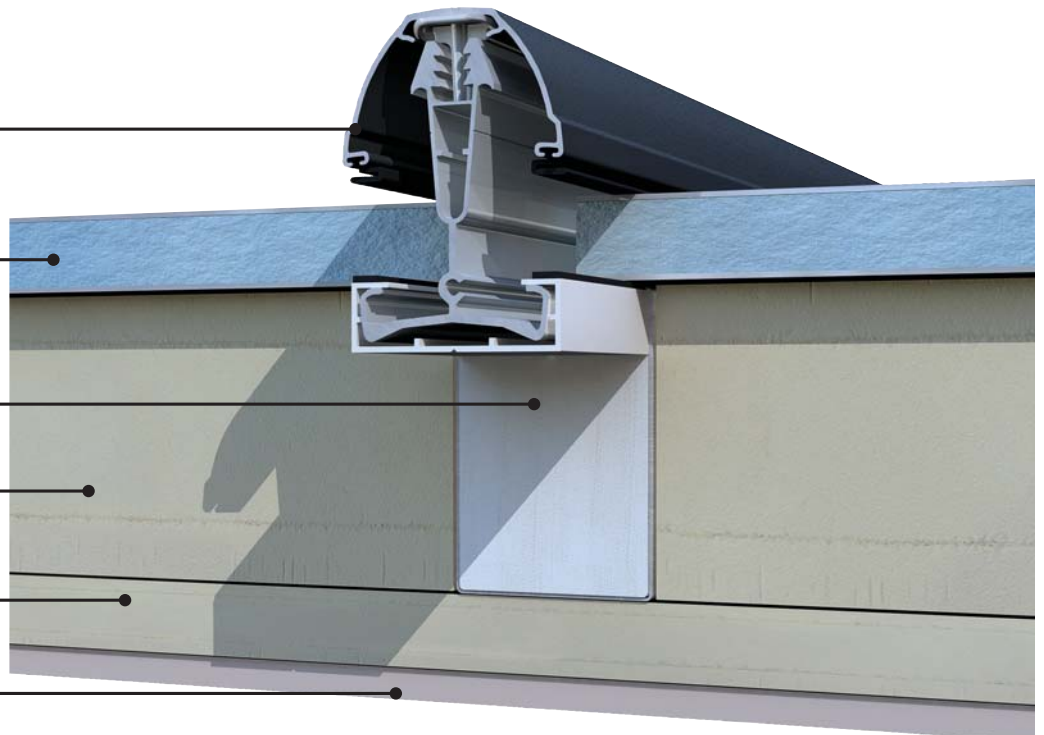

Exterior insulating panel

Classic roof features an insulated
bolstered glazing bar

90mm Kingspan board insulation

25mm Kingspan board insulation
